Survey Crew Chief,  
Midland Surveying, Inc.

Midland Surveying, Inc. has established a long-standing, working relationship with the Missouri Department of Transportation (MoDOT) and was recently selected to provide general surveying services for Districts 1 and 4 and photogrammetric services statewide. The 3-year, general services agreement with MoDOT is a testament to past performance on similar contracts with MoDOT and other state and federal agencies.

Midland Surveying was selected by MoDOT in 2009 and 2007 to perform photogrammetric services statewide. This followed consecutive selections in 2002, 2004 and 2006 for two-year, on-call contracts with MoDOT to perform photogrammetric services statewide.
